Jessica: I checked with someone who works in front end processing and was told the Agency is possibly setting up some portal webinars this calendar year. If I can find out any more details I will be in touch.

Hello Heather,

Does EPA offer training on submitting petitions through the CDX portal. I am only familiar with submitting our EPA Est. reports through the portal. I recently tried to submit a new NSD through CDX and kept getting validation errors with no further explanation. I ended up getting frustrated and submitted it as a hard copy. I would be more than willing to submit electronically, as long as I know how to do it properly.

I have also attached the two electronic product labels for Chlormequat Chloride MUP and Adjust SL.

I will update our transmittal document with the guideline numbers and send it to you in a separate email. I have not received a full list of our MIRD numbers. Can you send them to me? Also was our new import tolerance petition assigned a petition number?

Thanks,
Jessica

Thanks Jessica. I do want to alert you to the fact while we will try to make the PRIA date on this action it may need to be delayed. But we can discuss that further down the line once we see where we are. This action was submitted in hard copy form in December and was in the queue to be completely scanned to make it electronic. However, that did not happen due to the shutdown. So we are a little behind. In the future is there any way that Eastman Chemical Company would be willing to use the on line portal for submissions?

Also when you have a moment can you also email me the two labels in PDF format? We do all of our reviews electronically now.

Thanks!
Heather

Hello Heather,

I have attached the two documents you requested. I look forward to working with you on this action. Please let me know if need anything from me.

Regards,
Jessica

Hi Jessica: thanks for the discussion this morning. I'll wait to hear from you regarding the respect to citation of data form and the waiver rationale.

Thanks!
Heather
